## THIS MAN AND HIS AGENDA IS FAR MORE DANGEROUS THAN ANY DOG.

Please come to your weekly City Council meeting (every Monday, 6:30p, City Hall, room S249) and speak out against Steve Madison's Pit Bull criminalizing.

Currently California state law prohibits "breed bans" but Mr. Madison is pushing for the ability to challenge this provision.

Right now they are focused on passing breed-specific legislation against Pit Bulls, mandating that they all be sterilized.

No one has a problem with spaying and neutering, but it should be voluntary, accessible and affordable for the entire community.

Attend any meeting and you will see that this law is being put forth while blanketly demonizing all Pit Bulls. It is clear and obvious discrimination.
